

CAPTIVATING NEW SINGLE FROM LUCIE TIGER, "SHAKE THE FROST" OUT NOW

Lucie Tiger's new release is a captivating cover of **Tyler Childers** 'Shake The Frost'. While Lucie usually releases self-penned songs, this cover features keys and a band, and these really round out the song compared to Childer's sparse yet beautiful acoustic release.

For Lucie, '**Shake The Frost**' embodies a sense of nostalgia and a longing for change; an anthem of knowing that one can emerge from the darkness and 'shake the frost,' especially with the support of the right people. While the song may carry diverse meanings for different listeners, Lucie aspires to introduce it to a fresh audience. For those already acquainted with the tune, her added instrumentation amplifies the warmth and hope embedded in the lyrics.
